The solution is very simple, and is easily set up by the user - just delete all the files in your ftp root directory and wait 30 seconds before you try to upload a file again. Yes, it really is that simple. 7/07/2005 - 1.0.8 Something's wrong with the server, the login screen is not showing up. It's been a couple of months since the 1.0.7 release, and it still doesn't work for some people. :(I'll fix this ASAP, sorry for the trouble. :(6/05/2005 - 1.0.4 FTP_MD5 - Disconnects from the server, producing a successful connection but no data transfer. Fixed - Don't disconnect after success. 6/05/2005 - 1.0.3 Added FTP_MD5 - Disconnects from the server, producing a successful connection and log messages as to what is wrong. Fixed - Don't disconnect after success. 6/05/2005 - 1.0.2 Working FTP_MD5 - Does what it says on the tin - works as designed, but still needs a little tweaking. Fixed - Don't disconnect after success. 24/04/2005 - 1.0.1 Won't connect to servers with the old settings - works fine with all servers listed at ccy.bucket.net. This is not a "music tagging" app. It's a "music editing" app. The "music tagging" portion is done by a number of other programs. The "music editing" portion has nothing to do with tagging. That said, I am not seeing any of these problems in the example video. You have to examine the app's interface and see what it does (e.g. what does it require to do so). The author has said, "The program is available for free, or at a discounted rate. " The free version of the program does not have the ability to load ID3 tags from directory. You can read and create Tags from file. Thinking about it another way, as a coverter of MP3 music files to
