Is there a way to make YouTube Music available in your country? Once you can enjoy YouTube Music on your PC? PlayMe has your back! Download it now and get YouTube Music on your computer. How does PlayMe work? PlayMe is a YouTube Music client for Windows which makes it possible to listen to music on your desktop when using the mobile version of YouTube. How does PlayMe work? PlayMe is a YouTube Music client for Windows which makes it possible to listen to music on your desktop when using the mobile version of YouTube. Download PlayMe here PlayMe Details: Category:YouTube YouTube Music player YouTube Music client for desktops PlayMe is a Google YouTube Music client for Windows that works great with Android, iOS and macOS. The software makes it possible to listen to music on your PC when using the mobile version of YouTube. The application is a powerful tool to take advantage of the YouTube's latest releases and playlists. How PlayMe works? When using the mobile version of YouTube on your phone, many people keep the search engine open and make song searches when searching for a particular tune. PlayMe, however, takes advantage of this fact and makes it possible to listen to music on your desktop. Simply click on the "play me" button on the YouTube website, which creates a playlist of your preferred videos. In order to do so, all the songs must be in the same folder. The application can be downloaded and installed directly on your Windows PC. It's designed to be the perfect music tool to help you enjoy your favorite tunes. Once it's open, you'll be able to enjoy and search videos and music on your computer. The playlist feature is, by far, the most interesting feature of this Google YouTube music client. To be able to play the music you want to listen to, the application needs to be enabled, and the browser must have a connection to the mobile version of YouTube. You can also connect PlayMe to your Spotify account if you have one, or even a Facebook account if you are connected to the latter with your smartphone. If you prefer to rely on native apps, you can also download PlayMe for iOS, macOS, and Android as well. Next, a page will open where you can see a list of your music libraries and browse them. PlayMe also provides a similar interface to YouTube's search results. On one side of the screen, you'll see your playlists, search results
