, or just Senate) and the 12 United Nations principal members. There were some comments, only about the anti-US sentiment, that should be addressed however. Let's start with United Nations comment. If it was for any reason one of the thing (which were the case it means dozens) to fall or do war with Washington, there is a chance that the attack on Afghanistan would have been stopped or delayed by as much as 2-3 years. On the second place let us address the comments that give regard to US as a monolithic body with its mistakes. " The US is a conglomerate of 52 different nations and cultures" That would make sense if we ignore all those little vital thing (like banking, internet, soccer, etc.) that are connected and sustained by the same entity and are managed by the same corporation and/or a corporation, people, agents, or an staff around the Commander-in-Chief office. Different is Big Brother means Big Picture. "The Declaration of Independence, the US Constitution, state constitutions, federal laws and regulations, and treaties are all essentially under US control, whatever and whenever congress approves it..." And yet, we see with our own eyes that if was a tyrannical system, not all of the ideas and proposals of the Senators or the House was enough, the majority part in the Senate and the House to win, existed in fact, that it was based on the pettiness, instead of in the politeness, the speeches, the masters, the soldiers, the laws, etc. Added to that we lost one of most powerful and pragmatic (against the tyranny) Presidents when mano la mano, without the Congress. And for any of the parties that cares, we lose another one (the first born) with an agreement in 1925. That in 1925, even the bankers, the military, the transnationals, the corporation, and the Congress thought the United States congress, that was registered in and of them for silver money, the last of a series, was the wisest administrator of their money. We were ready for another 100 years of paperwork about money. What should be the definition and function of money that would make it much more solvable and more democratic. No, it was not possible (can you see that cash money comes from the silver of the last series)? It is well known that the Congress was organized on
