Apr 30, 2008 - 44 min read The Monk Who Sold His Ferrari By Luigi Barzini (translated by William Weaver). This intriguing and immensely readable book concerns the travels and., in 1989, a few years after the great depression. In the day, you didn't have workers (unions) fighting for wages/benefits that are today's standard. You had to beg your GI to take care of you. As for food, you had to take what you got, and you got it from your family. Things are getting better, because we are getting more and more intelligent, and I sure hope we don't screw it all up. "I've never really heard anybody talk about what it felt like to be black and poor in the urban South before, so this really helped. I read that originally as 'On the other hand,' and I reread that and realized how much it had changed." -David Griswold, narrator of "The Shadow of the Panther." I always meant to get a book of short stories, but never got around to it. This is the same author and I like his work. I don't like "On the other hand" for a lot of reasons. It isn't so much that the narrator has trouble reconciling both sides of the story, it is that it just isn't very good writing. It's a great theme for a story, and Griswold executes it perfectly, but I really can't get past the fact that it is just not very good fiction. "I hope some of us can find the will to control ourselves so as not to destroy what we love." -Kurt Vonnegut, the author of Slaughterhouse Five I am not a "cautionary tale" type of person, and so this quote did not make me think. I can only see this as melding my personal views with his, and making the mistake of trying to "connect" the author to me. The first word is "Hope." I hope that we all have the human decency to not screw up and abuse the grand things that make this nation
